**Studio E** — My paintings are comprised of dreamlike compositions which map my inner world. They are a diary of fragments from dreams, incidents from daily life, and internal monologues that ground the work in a personal mythology. The main source of the work is drawn from opening the locked door of the unconscious through processes inspired by Sigmund Freud, Carl Gustav Jung and Surrealism. My intent is to create work which acts as a springboard for the viewer's own imagination.— Emily Halpern
